MAIZE TRIPLE MIX™

Read label carefully and obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

HANDLING PRECAUTIONS

Causes eye irritation. Avoid contact with eyes. Wash hands thoroughly after handling.

FIRST AID

If eye contact occurs, rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. For advice, or if you feel unwell, contact the National Poisons Centre 0800 POISON (0800 764766) or a doctor immediately. If medical advice is needed, have product container or label at hand.

DISPOSAL

Preferably dispose of product by use or spreading on pasture. Otherwise dispose of product and packaging at an approved landfill or other approved facility. Bury packaging in a suitable landfill, or if appropriate recycle.

DIRECTIONS FOR USE

Add to maize silage at the time of feeding out, usually at a rate of 150gm/cow/day. Each 150g dose will supply approximately 32g calcium (equivalent to 82.5g Lime Flour), 20g magnesium (equivalent to 37.5g Magnesium Oxide) and 12g sodium (equivalent to 30g Salt).

Maize Triple Mix is designed to supplement the minerals (calcium, magnesium and sodium) that are in low amounts in some supplementary feeds, especially maize silage. Sometimes during periods of high demand, the calcium and/or magnesium levels in this product may not be sufficient to supply the cows' total mineral requirements. In these cases additional calcium (eg Lime Flour) and/or magnesium (eg Magnesium Oxide Fine) may need to be supplemented.

Maize Triple Mix must not be used in the last 1-2 months of your cows' pregnancy without veterinary advice. If you require further information on specific supplementation rates please contact Ravensdown, your veterinarian, animal health adviser or nutritionist.

EPA APPROVAL NUMBER HSR002521

See www.epa.govt.nz for approval conditions.

In a transport emergency call 111; Police or Fire Brigade. For 24 hour specialist advice in an emergency, call 0800 CHEMCALL (0800 243 622). If additional safety information is required, refer to the Safety Data Sheet (SDS). For a copy of the SDS phone 0800 100 123.

Close and seal bag after use. Store locked up in a clean dry covered facility below 30°C and away from direct sunlight.
