SWEETWATER® | READ LABEL CAREFULLY BEFORE USING

Read label carefully and obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

FIRST AID

For medical advice, contact the National Poisons Centre 0800 POISON (0800 764766) or a doctor immediately. If medical advice is needed, have product container or label at hand.

DIRECTIONS FOR USE

Drinking water: Add to the drinking water, either through an in-line dispenser or directly to the water, at a rate to achieve a final concentration of ½ - 2ml of **SWEETWATER** per litre of water in the trough. Alternatively add 25 - 50ml **SWEETWATER** per kilogram of dissolved additive.

Drench mixture: Add **SWEETWATER** to the drench mixture as required.

Solid feeds: Add **SWEETWATER** at the rate of 1- 2 litres per tonne of feed.

Agrecovery is available on plastic containers up to 60L and for plastic or steel large drums from 61L - 1000L.

PHONE **0800 100 123**

Store in the original container, tightly closed, locked up, away from direct sunlight and below 30°C.

In transport emergency call 111, Police or Fire Brigade. For 24hr specialist advice in an emergency only call **0800 CHEMCALL (0800 243 622)**. If additional safety information is required, refer to the Safety Data Sheet (SDS). For a copy of the SDS phone 0800 100 123.
