# **Safety Data Sheet**

# Superphosphate

# **Section 1: SUBSTANCE IDENTIFICATION AND SUPPLIER**

Product Name:	Superphosphate	
Other Names:	Single Superphosphate, SSP	
Product Code:	1000000	
Recommended Use:	Fertiliser	
Restrictions of Use:	Refer to Section 15	
Company Identification:	Ravensdown Limited	
Address:	292 Main South Road, Hornby, Christchurch, 8042 PO Box 1049, Christchurch 8011	
Customer Centre:	0800 100 123	
National Poisons Information Centre:	0800 POISON (0800 764 766)	
Emergency Phone Number:	0800 CHEMCALL (0800 243 622) (24hr) (Emergencies Only)	
Transport Emergency Phone Number:	111 - tell operator what service is needed: Fire, Ambulance or Police	
Date of SDS Preparation	30 April 2021	

# **Section 2: HAZARD IDENTIFICATION**

This substance is hazardous according to the EPA Hazardous Substances (Classification) Notice 2020

EPA Approval No:	Fertilisers (subsidiary) - HSR002571		
Pictograms:			
Signal Word:	Warning		

HSNO Classification	Hazard Code	Hazard Statement	
Eye irritation Cat. 2	H319	Causes serious eye irritation.	

<b>Prevention Code</b>	Prevention Statement	
P103	Read label before use.	
P264	Wash hands thoroughly after handling.	
P280	Wear protective clothing as detailed in Section 8.	

Response Code	Response Statement
P305 + P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.

Storage Code	Storage Statement
None allocated	

Disposal Code	Disposal Statement
P501	Dispose of according to Local Regulations or Authorities

# **Section 3: COMPOSITION INFORMATION**

INGREDIENT	CAS No.	CONTENT
Superphosphate	8011-76-5	100%

# **Section 4: FIRST AID MEASURES**

Routes of Exposure:			
If in eyes:	Flush with plenty of water for several minutes, holding eyelids open if necessary. Remove contact lenses if present and easy to do. If eye irritation persists: Get medical advice/attention.		
If on skin:	Wash affected area thoroughly with soap and water.		
If ingested:	Never give anything by mouth to an unconscious person. If swallowed rinse mouth. If large quantities are ingested give 1 or 2 glasses of water to dilute. Seek medical advice.		
If inhaled:	Remove patient to fresh air. Lay down and keep warm and rested. If breathing is shallow or has stopped ensure airway is clear and apply resuscitation. Seek medical assistance If needed.		
Most important symptor	ns and effects, both acute and delayed		
Symptoms:			
Eyes:	Causes severe eye irritation.		
Skin:	Not applicable.		
Ingested:	Not applicable.		
Inhaled:	Not applicable.		
Notes to Doctor:	Treat symptomatically.		

# **Section 5: FIRE FIGHTING MEASURES**

Hazard Type	Non Flammable	
Hazards from combustion	Sulphur oxides, phosphorous oxides.	
products		
Suitable Extinguishing media	Based on surrounding materials.	
Precautions for firefighters	Breathing apparatus, goggles and protective gloves.	
and special protective		
clothing		
HAZCHEM CODE	None allocated	

# **Section 6: ACCIDENTIAL RELEASE MEASURES**

Personal	precautions.	protective	equipment	and eme	rgency proced	lures:
r Cr Soriar	pi ecautions,	protective	equipilient	and eme	igency proced	iui cs.

Wear appropriate protective clothing as detailed in Section 8. Exclude non-essential people from the area.

#### **Environmental precautions:**

Avoid from entering drains, waterways or sewers.

### Methods and material for containment and cleaning up:

Contain spill and sweep up. Collect and place in sealable containers. Avoid generating dust. Reuse or recycle where possible. Dispose of according to Section 13.

# **Section 7: HANDLING AND STORAGE**

Handling:	Read label before use.
	Wash hands after handling.
	Avoid generating dusts, do not breathe dusts.
	Avoid unintended release into the environment.
	Wear protective clothing as detailed in Section 8.

Storage:	Store away from incompatible materials listed in Section 10.	
	Store in cool, dry, well-ventilated area.	
	Keep out of the reach of children.	

# **Section 8: EXPOSURE CONTROL/PERSONAL PROTECTION**

#### **WORKPLACE EXPOSURE STANDARDS (provided for guidance only)**

TWA STEL

Substance ppm mg/m³ ppm mg/m³

Particulates not otherwise classified: Inspirable dust 10mg.m<sup>-3</sup>

Respirable dust 3mg.m<sup>-3</sup>

Workplace Exposure Standard – Time Weighted Average (WES-TWA). The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short-Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- Minute period in the working day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply. Workplace Exposure Standards and Biological Exposure Indices NOV 2019 11<sup>TH</sup> EDITION.

Engineering Controls: Handle in well ventilated area. Minimise generation of airborne dust.

# Personal Protection Equipment: Wear close fitting safety glasses or goggles to prevent dust getting in eyes. Ensure eye wash facilities should be available. Skin/Hands: Wear protective clothing and gloves where there is a risk of moderate to high skin contamination from product. Respiratory: Wear particulate respirator where there is a risk of breathing in moderate to high levels of airborne dust. General: Do not eat, drink or smoke while using this product. Remove protective clothing and wash hands and face before meals and after work. Wash protective clothing daily after work.

# **Section 9: PHYSICAL AND CHEMICAL PROPERTIES**

Appearance	Granule
Colour	Grey or brown
Odour	None
Odour Threshold	Not available
pH	Not available
<b>Boiling Point</b>	Not available
Melting Point	Not available
Freezing Point	Not available
Flash Point	Not available
Flammability	Not available
Upper and Lower Explosive	Not available
Limits	
Vapour Pressure	Not available
Vapour Density	Not available
Specific Gravity	Not available
Bulk Density	1150 kg/m³
Water Solubility	Partially soluble
Partition Coefficient:	Not available
Auto-ignition Temperature	Not available
<b>Decomposition Temperature</b>	Not available
Kinematic Viscosity	Not available

Particle Characteristics	Not available
--------------------------	---------------

#### **Section 10: STABILITY AND REACTIVITY**

Stability of Substance	Stable under normal conditions.	
Possibility of hazardous	Not available	
reactions		
Conditions to Avoid	No specific conditions.	
Incompatible Materials	No specific incompatibilities.	
Hazardous Decomposition	Sulphur oxides, phosphorous oxide.	
Products		

#### **Section 11: TOXICOLOGICAL INFORMATION**

#### **Acute Effects:**

Swallowed	Not triggered but may have a diuretic effect. Over exposure may cause mucous membrane irritation and coughing.
Dermal	Not applicable.
Inhalation	Not triggered however elevated exposure may result in mucous membrane irritation (nose & throat).
Eye	Causes severe eye irritation. Direct contact may result in lachrymation (tears), pain, redness and conjunctivitis.
Skin	Not triggered however prolonged and repeated skin exposure may result in irritation, skin rash and dermatitis.

#### **Chronic Effects:**

Carcinogenicity	Not applicable.
Reproductive Toxicity	Not applicable.
Germ Cell Mutagenicity	Not applicable.
Aspiration	Not applicable.
STOT/SE	Not applicable.
STOT/RE	Not applicable.

# **Section 12: ECOLOGICAL INFORMATION**

Slightly harmful to the environment. Avoid unintended release into streams and waterways.

Product:		
Persistence and degradability	No data available.	
Bioaccumulation	No data available.	
Mobility in Soil	No data available.	
Other adverse effects	Fluorosis (see below)	

Fluorosis, or fluoride poisoning, is often mistakenly called phosphate poisoning or superphosphate poisoning, because it is most commonly results when animals gain access to phosphate fertilisers. In fact, it is the fluoride (F) component of the fertiliser that is the issue, as all naturally occurring phosphate (P) deposits also contain fluoride.

To minimise the risk of fluorosis, stock should not be allowed to graze pasture topdressed with phosphate fertiliser for 21 days or until at least 25 mm of rain has fallen. Note that this will minimise but not necessarily eliminate the risk of poisoning. Where it is not possible to avoid grazing topdressed pasture, applying well-granulated fertiliser to dry pasture is probably better than applying dusty product, especially to dewy or wet pasture. Avoid overgrazing this pasture to minimise uptake of fertiliser granules from the soil.

So for milking cows, the best estimate is that somewhere between 3 g and 25 g F (100g - 2kg of phosphate fertiliser) is likely to cause toxicity problem, based on F content in the table below. Ewes are probably affected at similar rates per bodyweight, eg 15-150g of fertiliser.

Fertiliser	F Content (%)	F Content (g/kg)
Single superphosphate (SSP)	1.1 - 2.0	11 - 20

#### **Section 13: DISPOSAL INFORMATION**

Disposal Method:	Reuse or recycle where possible. If practicable apply excess fertiliser at recommended rates to appropriate land. Collection into sealable containers and dispose of in an	
	approved land fill. Observe any local authority restrictions that may apply.	
Container Disposal:	Rinse containers thoroughly prior to reuse. Otherwise render unusable and dispose of as	
	waste.	
Precautions or methods to avoid:	Do not allow to enter waterways.	

# **Section 14: TRANSPORT INFORMATION**

This product is NOT classified as a Dangerous Good for transport in NZ; NZS 5433:2012

#### **Section 15: REGULATORY INFORMATION**

This substance is classified hazardous according to the EPA Hazardous Substances (Classification) Notice 2017		
<b>EPA Approval Code:</b> Fertilisers (subsidiary) - HSR002571		
GHS Classification:	Eye irritation Cat. 2	

HSW (HS) Regulations 2017	Trigger Quantity
Signage Trigger Quantities (Schedule 3)	Not required
Emergency Response Plan (Schedule 5)	Not required
Secondary Containment (Schedule 5)	Not required
Tracking (Schedule 26)	Not required
Certified Handlers	Not required
Restrictions of use	None known.

## **Section 16: OTHER INFORMATION**

#### **Glossary**

Cat Category

EC<sub>50</sub> Median effective concentration.
EEL Environmental Exposure Limit.
EPA Environmental Protection Authority
HSNO Hazardous Substances and New Organisms.

HSW Health and Safety at Work.

LC<sub>50</sub> Lethal concentration that will kill 50% of the test organisms inhaling or ingesting it.

LD<sub>50</sub> Lethal dose to kill 50% of test animals/organisms.

LEL Lower explosive level.

OSHA American Occupational Safety and Health Administration.

TEL Tolerable Exposure Limit.

TLV Threshold Limit Value-an exposure limit set by responsible authority.

UEL Upper Explosive Level
WES Workplace Exposure Limit
