# STOCK SELENIUM™ | READ LABEL CAREFULLY BEFORE USING

Read label carefully and obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

## HANDLING PRECAUTIONS

Harmful if swallowed, inhaled or in contact with the skin. May cause damage to the hepatic and alimentary systems. Suspected of causing genetic defects. Avoid contact with the skin and do not breathe vapours. Wear protective clothing and gloves and use personal protective equipment as required. Use only outdoors or in a well-ventilated area. Do not eat, drink or smoke when using this product and wash hands thoroughly after handling. Wash contaminated clothing before re-use.

## FIRST AID

If skin contact occurs remove contaminated clothing and wash with plenty of soap and running water. If swallowed rinse mouth but do not induce vomiting. If inhaled remove to fresh air and keep at rest in a position comfortable for breathing. For advice, or if you feel unwell, contact the National Poisons Centre 0800 POISON (0800 764766) or a doctor immediately. If medical advice is needed, have product container or label at hand.

## ENVIRONMENTAL PROTECTION

Harmful to aquatic life with long lasting effects. Harmful to the soil environment. Avoid release to the environment. Collect any spillage.

## DISPOSAL

Preferably dispose of product by use. Otherwise treat the product so that it is no longer toxic and dispose of product and packaging at an approved landfill or other approved facility. Triple rinse empty container, crush or puncture and bury in a suitable landfill, or if appropriate recycle.

## DIRECTIONS FOR USE

**Water treatment:** Administer through the water supply at a rate not exceeding 0.1ml/50kg bodyweight per day (equivalent to 10µg elemental Se/kg live weight/day).

Maximum dosing rates are:

50kg ewe = 0.1ml per day	400kg cow = 0.8ml per day	500kg cow = 1ml per day
-----------------------------	------------------------------	----------------------------

**Oral drenching:** Drench animals no more frequently than every 3 weeks at a rate not exceeding 1ml/50kg bodyweight (equivalent to 0.1mg elemental Se/kg live weight).

Maximum drenching rates are:

25kg lamb = 0.5ml	50kg ewe = 1ml	100kg calf = 2 ml
200kg yearling = 4ml	300kg yearling = 6ml	500kg cow = 10ml

Do not administer more than seven 3-weekly doses per year.

For dairy cows that are drenched daily during milking, use the rates described as for water treatment above.

**Addition to supplementary feed:** Mix thoroughly into supplementary feed to supply no more than 0.1ml/50kg bodyweight per day (equivalent to 10µg elemental Se/kg live weight/day).

Maximum dosing rates are:

50kg ewe = 0.1ml per day	400kg cow = 0.8ml per day	500kg cow = 1ml per day
-----------------------------	------------------------------	----------------------------

## WARNING

Only use where selenium deficiency has been diagnosed and do not use at the same time as any other selenised fertiliser, prill or product without consulting a veterinarian. Contact your veterinarian for more information and do not exceed stated dose and frequency. Frequent monitoring of your stock's selenium status with blood and/or liver testing is recommended.

EPA approval number HSR002390.  
See [www.epa.govt.nz](http://www.epa.govt.nz) for approval conditions.

BATCH:

D.O.M:

Store in the original container, tightly closed, locked up, away from direct sunlight and below 30°C.

In transport emergency call 111, Police or Fire Brigade. For 24hr specialist advice in an emergency only call **0800 CHEMCALL (0800 243 622)**. If additional safety information is required, refer to the Safety Data Sheet (SDS). For a copy of the SDS phone 0800 100 123.

Agrecovery is available on plastic containers up to 60L and for plastic or steel large drums from 61L - 1000L.
