ENDURE[®] MINI | READ LABEL CAREFULLY BEFORE USING

This product must not be used for any purpose, or in any manner, contrary to the label unless authorised under appropriate legislation.

HAZARD CLASSIFICATION: 6.1D, 6.8B, 6.9B, 9.1C, 9.3C

TOXICITY

Harmful - May be harmful if swallowed or inhaled. May cause reproductive and liver damage from repeated oral exposure.

ECOTOXIC

Harmful to aquatic organisms with long lasting effects. Avoid contamination of any water supply with product or empty container.

Harmful to terrestrial vertebrates. Keep away from animals, poultry, ducks and domestic pets as accidental poisoning may be fatal.

HANDLING PRECAUTIONS

STORAGE

Keep out of reach of children. Store in accordance with NZS 8409 Management of Agrichemicals. Store in original container tightly closed in a locked, dry, cool area away from domestic animals and poultry. Store away from food, feedstuff, seed and fertiliser. Stores containing 1000kg of ENDURE MINI are subject to signage and secondary containment. More than 1000kg require emergency response plans.

PERSONAL PROTECTION

Avoid contact with skin and eyes. Avoid inhalation of dust. When handling wear protective clothing such as waterproof gloves, eye protection, overalls and boots. Remove protective clothing and wash hands and face thoroughly before meals and after work. Do not eat, drink or smoke while using.

EQUIPMENT

Apply using well maintained and accurately calibrated equipment. Flush equipment thoroughly with clean water after use.

RECORD KEEPING

Records of use as described in NZS 8409 Management of Agrichemicals must be kept.

DISPOSAL

Ensure container is completely empty by emptying into application equipment or other use. Dispose of packaging at a suitable landfill. Dispose of unused product only by using in accordance with label directions or at an approved landfill.

FIRST AID

If swallowed, DO NOT induce vomiting. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If eye contact occurs, wash out immediately with water. If inhaled, move the patient to fresh air immediately. Begin artificial respiration if breathing has stopped.

SPILLAGE

In case of spillage, wear appropriate protective clothing and prevent material from entering waterways. Exclude non-essential people from the area. Sweep up spilled pellets and dispose of safely according to the label directions or at an approved landfill.

EMERGENCY RESPONSE

In transport emergency call 111, Police or Fire Brigade. For 24hr specialist advice in an emergency only call **0800 CHEMCALL (0800 243 622)**.

SAFETY DATA SHEET

If additional safety information is required, refer to the Safety Data Sheet. For a copy contact the customer centre on 0800 100 123.

TRANSPORT

Do not carry this product on a passenger service vehicle.

SHELF LIFE

When stored appropriately this product should show no significant degradation for two years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

WARRANTY AND LIMITATION

IMPORTANT: Read this notice before opening the container.

The registrant warrants that when packed the active ingredient of this product is as specified on this label within accepted analytical tolerances. The registrant gives only those other warranties that are required by law in relation to this product and limits its liability to the cost paid by the claimant for the product. The registrant declines all liability for damage resulting from the handling, storage or use of this product. The user bears the risk from the handling, storage or use of this product. The registrant is not liable for any use of this product which is contrary to the label directions given or any Act or Regulation.

Registered Pursuant to the ACVM Act 1997 P009300.

See www.foodsafety.govt.nz for registration conditions.

Approved pursuant to the HSNO Act 1996, No.HSRO07794.

See www.epa.govt.nz for approval controls.

PRODUCT INFORMATION

ENDURE MINI is a purpose-designed mini bait for application with seed when sowing crops. The mini bait ensures a high number of baiting points in the drill rows. ENDURE MINI bait kills slugs and snails by irreversibly destroying the mucus producing cells that are essential for movement.

DIRECTIONS FOR USE

DO NOT apply to edible plant parts or to crops where baits may be collected with harvested commodities or animal fodder.
DO NOT heap baits.

PROTECTION OF ANIMALS

Store safely away from animals as accidental poisoning may be fatal. Keep poultry and pets, particularly cats and dogs, away from treated areas. ENDURE Mini contains a bittering agent which should deter most cats and dogs. However, some animals are inquisitive and may not be deterred. If animals are poisoned, contact a veterinarian.

WITHHOLDING PERIOD

Do not apply to edible plant parts for human consumption or plant parts that will be grazed or fed to animals. Withhold stock from treated areas for 7 Days.

RECOMMENDED USES

It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

Use low rate for low pest pressure and high rate for moderate to high pest pressure. By law, the maximum application rate must not be exceeded.

For the Control of Snails and Slugs

Crops	Rate	Remarks
All seeded crops	In furrow treatment: Apply at 330,000-440,000 baits/ha (3.0-4.0 kg/ha)	When sowing crops with seed size similar to ENDURE MINI, thoroughly mix with seed and add to seeder hopper. Calibrate seeder to allow for the addition of the granules. ENDURE MINI may also be applied through a precision granule applicator directly into the sowing slot when sowing large seeded crops such as maize and squash. Do not add to seed when using a Precision Seeder as seed spacing will be affected. If slug pressure is high, a broadcast application using ENDURE Snail and Slug Bait may also be required to protect emerging crop.
