

# GRANULAR AMMONIUM SULPHATE

BATCH NUMBER:

BAGGING DATE:

Read label carefully and obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

## PRODUCT DESCRIPTION

Granular Ammonium Sulphate provides an equal balance of readily available nitrogen and sulphur meeting short term nutrient deficiencies and promoting vigorous growth in a wide range of plants such as vegetables, shrubs and lawns.

## DIRECTIONS FOR USE

Granular Ammonium Sulphate is typically applied at a rate of 15 grams per square metre at planting, water in well. For use on established plants apply 15 grams per square metre, water in well. For use on established lawn apply 15-20 grams per square metre, water in well. Avoid fertiliser contacting paths, hard surfaces and driveways as the fertiliser may stain or discolour these surfaces.

## COMPONENTS

Nitrogen (N): 20%. Phosphorus (P): 0.0%. Potassium (K): 0.0%. Sulphur (S): 23%. Magnesium (Mg): 0.0%. Calcium (Ca): 0.0%.

### CONTAINS

Granular Ammonium Sulphate: 100%

## HANDLING PRECAUTIONS AND STORAGE

### HANDLING

Read label before use. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid generating dusts, do not breathe dusts. Avoid release to the environment. Dispose of unused product in landfill. Dispose of empty packaging safely with domestic rubbish. If additional safety information is required, refer to the Safety Data Sheet (SDS). For a copy of the SDS phone 0800 100 123.

### STORAGE

Keep out of reach of children and animals. Store away from incompatible materials listed in Section 10 of the SDS. Store in a cool, dry area.

## WARNINGS AND FIRST AID MEASURES

### TOXICITY DATA

HSNO Class: acute oral toxicity Category 4.

LD50 (oral, rat) 2,840 mg/kg

### ECOLOGICAL INFORMATION

HSNO Classes: hazardous to the aquatic environment chronic Category 4 *Note: hazardous to the aquatic environment acute Category 2 and acute Category 3 have not been adopted*; hazardous to terrestrial vertebrates.

May cause long-lasting harmful effect to aquatic life.

### IF IN EYES

Flush with plenty of water for several minutes, holding eyelids open if necessary. Remove contact lenses if present and easy to do. Seek medical advice.

### IF ON SKIN

Wash affected area thoroughly with soap and water. Seek medical attention if needed.

### IF INGESTED

Never give anything by mouth to an unconscious person. If swallowed, rinse mouth.

### IF INHALED
