

LAWN FERTILISER**BATCH NUMBER:****BAGGING DATE:**

Read label carefully and obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

PRODUCT DESCRIPTION

Lawn Fertiliser is a blend of superphosphate and ammonium sulphate, with the addition of a small amount of ferrous sulphate. Lawn Fertiliser is designed to promote rich green grass growth by providing a balanced blend of nitrogen and phosphorus with the addition of iron sulphate to reduce moss.

DIRECTIONS FOR USE

Lawn Fertiliser is typically applied at a rate of 20 grams per square metre every two months (this is equivalent to 200kg/ha). Water the lawn after each fertiliser application. Unlike most solid fertilisers, Lawn Fertiliser is not stable and should be applied as soon as practical after mixing at the store as has propensity to become lumpy. Avoid fertiliser contacting paths, hard surfaces and driveways as the fertiliser may stain or discolour these surfaces.

COMPONENTS

Nitrogen (N): 14.0-15.0%. Phosphorus (P): 1.8-2.3%. Potassium (K): 0.0%. Sulphur (S): 18.7-20.9%. Magnesium (Mg): 0.0%. Calcium (Ca): 4.0-5.0%.

CONTAINS

Granular Ammonium Sulphate: 70-75%

Superphosphate: 20-25%

Ferrous Sulphate Granular: 2-5%

HANDLING PRECUATIONS AND STORAGE**HANDLING**

Read label before use. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective clothing as detailed in Section 8 of SDS. Avoid generating dusts and do not breathe in dust. Avoid release to the environment.

If additional safety information is required, refer to the Safety Data Sheet (SDS). For a copy of the SDS phone 0800 100 123.

STORAGE

Store locked up. Store out of reach of children and animals. Store away from incompatible materials listed in Section 10 of the SDS. Store in a cool, dry area.

WARNINGS AND FIRST AID MEASURES**TOXICITY DATA**

GHS Classification and Category: acute oral toxicity Category 4 – harmful if swallowed; eye irritation Category 2 – causes serious eye irritation.

Granular Ammonium Sulphate: LD50 (oral, rat) 2,840 mg/kg

Ferrous Sulphate Granular: LD50 (oral, rat) 319 mg/kg

ECOLOGICAL INFORMATION

This mixture is not hazardous to the environment.

IF IN EYES

Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF ON SKIN

Wash skin with plenty of soap and water. If skin irritation occurs: Get medical advice/ attention.

IF INGESTED

Rinse mouth. Never give anything to the mouth of an unconscious person. If vomiting occurs, place victim face downwards, with the head turned to the side and lower than the hips to prevent vomit entering the lungs. Call a POISON CENTER or doctor/physician if you feel unwell.

IF INHALED

Remove person to fresh air. Remove contaminated clothing and loosen remaining clothing. Allow person to assume most comfortable position and keep warm. Keep at rest until fully recovered. Get medical advice if breathing becomes difficult.

For advice, or if you feel unwell, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If medical advice is needed, have product container or label at hand.
